ABOUT ME

I'm a web developer focused on creating clean, responsive, and user-friendly websites. I specialize in front-end development, combining technical precision with a strong sense of design and usability. I constantly learn and apply new web technologies to improve performance and user experience. My goal is to work with innovative teams, build impactful digital products, and continue advancing my skills in modern web development and UI/UX design.

EDUCATION

Metro Manila College | 2025-2027

**Information Communications and Technologies Strand
Senior High School 1st year**
