ABOUT ME

Full Stack Developer from the Philippines with 3+ years of experience building scalable web applications and APIs. Skilled in React, Node.js, TypeScript, Express.js, and REST APIs, with additional experience in Python automation and embedded systems (Arduino, ESP32). Focused on clean, maintainable code and practical problem solving across frontend and backend development. Open to remote junior, internship, or project-based roles.

EDUCATION

Metro Manila College | 2025-2027

**Senior High School – Information and Communications
Technology (ICT) Strand**

WORK EXPERIENCE

No formal work experience yet

Completed personal and academic projects in full-stack web development, including frontend interfaces, backend APIs, and small-scale deployed systems. Actively building experience through independent projects and continuous learning.
